

Cristian Abrante

+34 634 682 893 | Barcelona, Spain | cristian@abrante.me | github.com/CristianAbrante | www.linkedin.com/in/cristianabrante | cristianabrante.com

Passionate Data Engineer with a strong foundation in data science, shaped by diverse international experiences. Currently contributing at Alohas.com, where I design and implement scalable data and analytics architectures to drive business insights and decision-making.

EXPERIENCE

Data Engineer
ALOHAS

Mar 2025 — Present
Barcelona, Catalonia, Spain

- First data hire — bootstrapped the entire data function from scratch
- Built a modern data platform with Airbyte, Dagster, dbt, BigQuery, and Lightdash
- Centralized analytics across the company to enable data-driven decision-making
- Leveraged AI-assisted development (OpenCode + Claude) to accelerate delivery
- **Tech:** Airbyte, Dagster, dbt, BigQuery, Lightdash, OpenCode, Claude

Data Engineer
Foodello - Fiksuruoka.fi

Oct 2023 — Feb 2025
Helsinki, Finland

- Developed and maintained data pipelines using dbt and Dagster
- Implemented data transformations in Snowflake data warehouse
- Built infrastructure as code using Terraform on GCP
- Created business intelligence dashboards using Tableau
- **Tech:** dbt, Snowflake, Dagster, Terraform, GCP, Tableau

Software Engineer
Unity Technologies

Sep 2021 — Oct 2023
Helsinki, Finland

- Built data pipelines using Apache Spark and Apache Druid for large-scale data processing
- Implemented data transformations and models using dbt and Snowflake
- Developed workflow orchestration solutions with Apache Airflow
- Managed cloud infrastructure on GCP using Terraform
- **Tech:** Scala, Apache Spark, Apache Druid, Airflow, dbt, Snowflake

EDUCATION

Aalto University
Master of Science, Data Science & Digital Innovation

www.aalto.fi
Sep 2020 — Nov 2022

- Grade: 4.27 / 5.0
- Second year of master’s studies organized by EIT Digital. Deepened knowledge of data science subjects and studied entrepreneurship topics.
- **Relevant Coursework:** Machine Learning, Supervised methods, Methods for Data Mining, Reinforcement learning, Master’s thesis

Universidad Politécnica de Madrid
Master of Science, Data Science & Digital Innovation

www.upm.es
Sep 2019 — Jun 2020

- Grade: 3.48 / 4.00
- First year of master’s program organized by EIT Digital. Gained strong foundation in data science and engineering while learning business and entrepreneurship concepts.
- **Relevant Coursework:** Statistical data analysis, Data processes, Deep learning, Big Data

SKILLS

- **Languages:** SQL, TypeScript, Python
- **Frameworks & technologies:** dbt, Spark, Dagster
- **Spoken languages:** Spanish (Native speaker), English (Full professional proficiency)

AWARDS

- **Extraordinary Award for Academic Performance in Bachelor’s Degree** — Universidad de La Laguna (Nov 2019)
- **Best Project Award - GeneticJS** — Oficina de Software Libre - Universidad de La Laguna (Apr 2019)
